

Assembly Instructions for Folding Tables

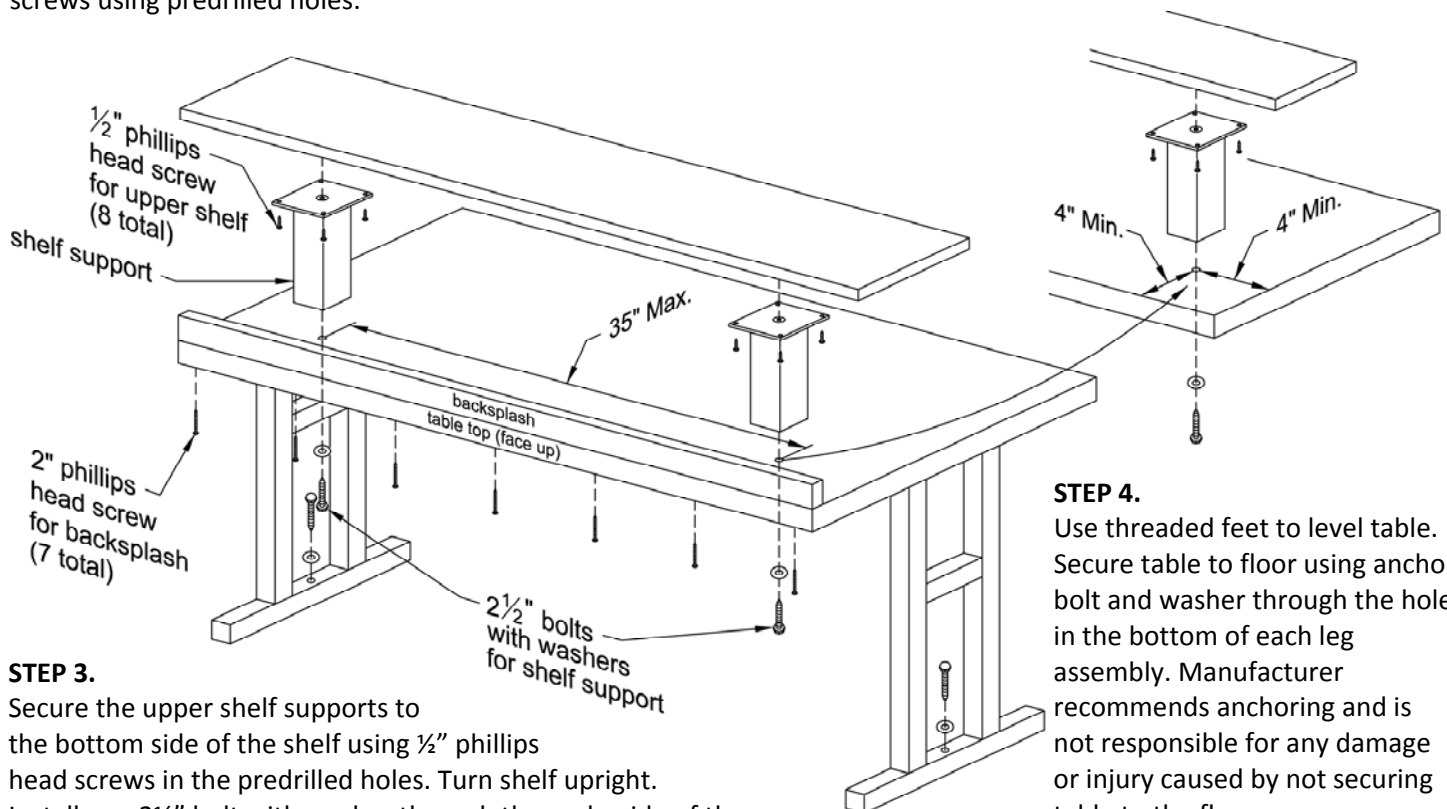

STEP 1.

Lay table top face down over protective surface on the floor. Attach legs as shown using 1" phillips head screws in each of the predrilled holes in the mounting plates and the spreader bar tabs.

STEP 2.

Place table upright. Install back splash (if included) with 2" phillips head screws using predrilled holes.

STEP 3.

Secure the upper shelf supports to the bottom side of the shelf using 1/2" phillips head screws in the predrilled holes. Turn shelf upright. Install one 2 1/2" bolt with washer through the underside of the table top and into the bottom of each shelf support using the predrilled holes.

STEP 4.

Use threaded feet to level table. Secure table to floor using anchor bolt and washer through the hole in the bottom of each leg assembly. Manufacturer recommends anchoring and is not responsible for any damage or injury caused by not securing table to the floor.
